NEWS APP (NEWSLINE)

Tech Stack-use: (Jetpack Compose, Retrofit, REST API)

November 2024

- Developed a dynamic news application using Jetpack Compose with a well-structured UI.
- Integrated REST APIs with Retrofit to fetch real-time news from various sources and designed personalized news feed with category-based filtering and bookmarking features.

TO-DO List App

Tech Stack-use: (Jetpack Compose, Room Database)

December 2024

- Developed a to-do list application with a clean and interactive UI using Jetpack Compose.
- Implemented a Room Database for efficient task storage and CRUD operations.

UTILITYs HUB APP

Tech Stack-use: (Android, Compose, Firebase) – Ongoing Development

January 2025 - Present

- A multi-utility application featuring a Calculator, Unit Convertor, Counter, Notification Sender, Filters, and Weather module. More features are under development.
- Integrated in-app feedback system for user reviews and Firebase Authentications for secure login and data management.

EDUCATION

Shiv Prakash Memorial School

10 + 2 in Commerce Stream | June 2021

SSR College of Arts, Commerce & Science

BBA in Computer Applications, January 2025 | Graduated

January 2025

TECHNICAL SKILLS

- Programming Language:** Kotlin, Core Python | **Version Control:** Git, GitHub
- Mobile Development:** Jetpack Compose, Android SDK, Firebase, UI/UX Design
- Backend Development:** Flask (Basic), SQLite | **Tools:** Android Studio, Figma, Creatie.ai

CERTIFICATES & WORKSHOPS

- Neat Roots** – Full Stack Android Development | September 2024
- Android App Development** – Two Days National Workshop | February 2024
- Best Reader Award 2023-2024 | Kotlin Programming | **Great Learning** in C Programming | EFA Courses
